If you have not yet set up Microsoft Authenticator, please do that now from your IOS or Android store using the link above to ensure that you get the correct one. It is recommended that you don't skip this step but if you do, you will be prompted to complete it later. Click "Next" to set it up or "Ask later" to skip for now.

Microsoft
myfbsusername@fbs.masa.ag
Action Required
Your organization requires additional security information. Follow the prompts to download and set up the Microsoft Authenticator app.
Use a different account
You have 14 days until this is required.
Ask later <u>Next</u>

If you didn't already install the app, you can click the "Download now" link on this page. If you have it installed and are ready to use it, then click the "Next" button.

## Follow the message information and then click "Next"

Now you are ready to scan the QR code using the Authenticator App

After you add the account, you can then click "Next"

After you click next the Authenticator App should prompt you to enter and confirm the number listed on the page. Answer "Yes" and the screen should automatically advance to the next screen.

Done	

Now you need to walk through the Windows App introduction.

You should now have a screen that has your FBS Workspace Connect button.

Before you use this, you may want to review the settings for your environment.

Click on the hamburger menu (...) next to the "Connect" button. Then click "Settings".
